# *Report on Moral Activity – Awareness Programme Title of the Event*

## *“Awareness Today, Addiction-Free Tomorrow” – A Moral Activity on Behavioural*

### *Innovation*

*Organized by*

*Department of Computer Science and Business Systems*

*Jeppiaar Institute of Technology*

*(In association with MoE’s Innovation Cell and Institution’s Innovation Council)*

*Date*

*06 February 2026*

*Time*

*10.00 AM – 12.00 PM*

*Venue*

*Ground Floor Auditorium, Jeppiaar Institute of Technology*

### *Objective of the Programme*

*The objective of the programme was to create awareness among students about the harmful effects of addiction and to promote positive behavioural innovation for leading a healthy, disciplined, and addiction-free life. The programme aimed to instill moral values, social responsibility, and self-control among young minds.*

### *Guest Speakers*

*The programme featured eminent resource persons from Madha Foundation – Integrated Rehabilitation Centre for Addicts (IRCA):*

- 1. Ms. Sasikala P, Secretary, Madha Foundation*
- 2. Mr. Paul Raj G, Founder, Madha Foundation*

### *Programme Details*

*The session began with a brief introduction about the importance of addiction awareness in today’s society. The speakers shared real-life experiences and insights on different forms of addiction, their impact on personal, academic, and social life, and the importance of early prevention.*

*Ms. Sasikala P highlighted the psychological and emotional consequences of addiction and emphasized moral strength, family support, and awareness as key factors in prevention. Mr. Paul Raj G elaborated on rehabilitation practices, recovery journeys, and the role of youth in building an addiction-free society.*

*Interactive discussions were conducted, where students actively participated and clarified their doubts. The session created strong awareness and encouraged students to adopt healthy habits and positive behavioural changes.*

*Student Coordinators*

- Akshiya M, CSBS*
- Mahalakshmi B, CSBS*

*Objective of the Event*

*The objective of the program was to create awareness among students about the importance of right thoughts, ethical values, moral responsibility, and inner peace through the practice of Meditation and Raja Yoga, thereby enhancing their emotional well-being and decision-making abilities.*

*Summary of the Event*

*The Department of Computer Science and Business Systems successfully organized a meditation and moral awareness program titled “Right Thoughts, Right Actions: An Innovative Journey of Moral Awareness through Meditation and Raja Yoga” under the banner of IIC 8.0.*

*The session was conducted by BK Rathina Kumar, an experienced meditation facilitator from Brahmakumaris Rajayoga Meditation and Retreat Center. The program began with an introduction to the significance of positive thinking, self-discipline, and ethical living in both personal and professional life.*

*The resource person explained the concept of Raja Yoga Meditation, highlighting how mental clarity and emotional balance can be achieved through regular practice. Practical meditation techniques were demonstrated, and students actively participated in guided meditation sessions. The speaker also emphasized how right thoughts lead to right actions, contributing to innovation, leadership qualities, and responsible citizenship.*

*Resource Person: Ms. Reshma R*

*Life Skills Trainer, Magic Bus India Foundation*

## Objective of the Program

The primary objective of the Faculty Development Program was to enhance faculty knowledge and skills in Artificial Intelligence, Machine Learning, Deep Learning, Generative AI, and Prompt Engineering, enabling them to integrate innovative AI practices into teaching, research, and academic activities.

## Summary of the Program

The Department of Computer Science and Business Systems successfully organized a Five Days Faculty Development Program on “Innovative AI and the Science of Prompt Engineering” under the banner of IIC 8.0, in collaboration with Magic Bus India Foundation.

The program commenced with an offline session on the Fundamentals of Artificial Intelligence, providing participants with a strong conceptual foundation. The second day focused on Generative AI and Large Language Models, offering insights into emerging AI technologies and real-world applications.

The online sessions covered advanced topics such as Machine Learning techniques, Deep Learning, Natural Language Processing, and Prompt Engineering. The resource persons explained concepts with practical examples, demonstrations, and interactive discussions. Participants actively engaged in the sessions and clarified their doubts related to AI tools and methodologies.
